

THE ART OF **Fearlessly** **DOING BUSINESS**

celebrating art & entrepreneurship | AoFDB.com

This unique visual journalism project celebrates the fearless entrepreneurial spirit and art. Each event highlights thirteen unique and fearless business leaders.

Visual Journalist, Michelle Micalizzi, captures the spirit, motivation and lessons learned of each subject in a painting. Michelle's use of mixed mediums enhances the texture, color and lighting so that the genuine essence of the subject is actualized. Paintings for the project provide both aesthetic intrigue and valuable entrepreneurial insight. Each illustration is accompanied by a blog post that notes what we might learn from this leader about being fearless and the YouTube Video of the fearless interview with the business leader.

A percentage of sales from The Art of Fearlessly Doing Business project is donated to art or business related charities every year.
